March 4 - 8, 2015

As your tradeshow partner, our goal is to provide you with hassle-free service so you can get on with your show. Even if you use an Exhibitor Appointed Contractor, you should have a basic working knowledge of the Exhibitor Services Manual contents and information.

By following the information below, you will enjoy a smooth trade show experience.

Ordering Trade Show Services

- Please include your complete customer information on each order form including address with zip code, phone and fax numbers, e-mail addresses, company, and contact name and most importantly, booth number. If you have multiple booth locations, please complete separate order forms for each location (booth, meeting room, etc.).
- Please ensure that the credit card information is complete and correct including the expiration date.
- When ordering carpet, draped tables or counters remember to select the colors you desire.
- Please make sure that the size of the carpet you order is appropriate for your booth space (e.g.; do not order a 10' x 20' carpet for a 10' x 10' and Various Size Booths booth).
- Keep the total square footage of your booth space in mind when you order your decorating items. Don't order more than will comfortably fit in your booth and still allow you to do business.

Inbound - Move In

- Confirm your furnishings orders with the GES National Servicenter® www.ges.com/chat. You should receive a confirmation of your order within 3-5 days of placement.
- **Confirm target dates with GES and communicate them to your carrier. Refer to the Special Handling brochure to ensure that you do not incur special handling charges. You may want to share this brochure with your carrier.**
- Keep the phone number of your carrier with you, including weekend contact and tracking numbers.
- Have your hotel information available, including phone number, address etc.
- After emptying crates, place empty labels on all sides of your crates and cases. Remember to remove old empty labels. Additionally, empty labels are sometimes color coded, so make sure you get the correct color and be sure your booth number is on each label.

Showsite

Put together a trade show survival kit to include in your freight or carry with you, including:

- Small Tool Kit
- Stapler, Scissors, Tape
- Pens & Markers for labels
- First Aid Kit
- Bottled Water

Work Zone

- Customer acknowledges that the show site and surrounding areas are active work zones. Customer, its agents, employees and representatives are present at their own risk.

Outbound - Move Out

- Keep in mind, the return of empty containers varies depending on the size of the show, so coordinate your outbound flight to accommodate this. GES does not provide security at show site. It is the Customer's responsibility to stay with their property. GES is not responsible for loss or damage to property left in the Customer's booth at any time for any reason.

Union Information

To assist you in planning your participation in your show, we are certain you will appreciate knowing in advance that union labor will be required for certain aspects of your exhibit handling.

Decorators Union - Local 831

Members of this union claim jurisdiction over all set-up and dismantling of exhibits including signs and carpet installation. This does not apply to the unpacking and placement of your merchandise. You may set up your exhibit display if one person can accomplish the task in less than one-half (1/2) hour without the use of tools.

If your exhibit preparation, installation, or dismantling requires more than one-half (1/2) hour, you must use union personnel supplied by the Official Service Contractor.

As an exhibitor, you will be pleased to know that when union labor is required, you may provide your company personnel to work along with a union installer in Southern California on a one-to-one basis.

Teamsters Union

Members of this union claim jurisdiction on the operation of all material handling equipment, all unloading and reloading, and handling of empty containers. An exhibitor may move materials that can be carried by hand, by one person in one trip, without the use of dollies, hand trucks, or other mechanical equipment.

Electrical Union

Members of the IBEW claim jurisdiction for hard wiring ordered outlets to the line side of the exhibitors' equipment and wiring of caps over 120 volts to the raw cord feeding exhibitors' equipment. All plugs over 120 volts will be plugged in by electrical union personnel. Exhibitors may plug in their own plugs of 120 volts to their ordered outlets.

Gratuities

Our work rules prohibit the SOLICITATION OR ACCEPTANCE of tips in cash, product or gifts in kind by any employee (union or non-union). Our employees are paid appropriate wages denoting professional status, therefore tipping of any kind is not allowed.

Work Zone

Customer acknowledges that the show site and surrounding areas are active work zones. Customer, its agents, employees and representatives are present at their own risk.

Always Honest Hotline

GES requires the highest standards of integrity from all employees. Please call our confidential Always Honest hotline at 866.225.8230 to report fraudulent or unethical behavior.

b. Receipt of Goods: GES shall not be liable for Goods received without receipts, freight bills, or specified piece count on receipts or freight bills, or for bulk shipments (i.e., UPS, air freight, or van lines). Hanging items from Booth: Customer shall not hang any articles, merchandise, product, advertisements, or other similar items from GES supplied booth materials (this includes but is not limited to GES panels or pipe and drape), utilized in Customer's own booth set up or in areas occupied by the show organizer or third parties. If Customer does hang any prohibited items, Customer alone shall be held liable for any damages, costs, actions or injuries resulting from the hanging of such item(s). If GES supervises labor for a fee, GES shall be liable only for actions or claims arising out of its negligent supervision. Such liability shall be limited to the cost to Customer of the supervised labor or the depreciated value of the Goods, whichever is less. If Customer elects to use unsupervised labor, then Customer assumes all liability for the actions or claims that arise out of such work, including but not limited to loss, damage or bodily injury and shall provide GES and show management with an indemnity, including defense costs, for any claims that result from Customers' supervision or failure to supervise assigned labor.

VIII. Miscellaneous
a. Insurance. **GES IS NOT AN INSURANCE COMPANY AND DOES NOT OFFER OR PROVIDE INSURANCE**. It is the obligation of Customer to ensure Goods are insured at all times. Loss or theft of the Goods in storage or in transit to and from the show and or while on the show floor is the sole responsibility of Customer. GES recommends Customer arrange for all Risk Coverage.

c. Filing of Claim: Any claim for loss or damage to Goods must be in writing, containing facts sufficient to identify the Goods, asserting liability for alleged loss or damage, and making claim for the payment of a specified or determinable amount of money. Such claim must be filed with the appropriate party within the time limits specified herein. Damage reports, incident reports, inspection reports, notations of shortage or damage on freight bills or other documents, do not constitute filing of a claim.

Customer agrees to pay GES prior to the close of the show for all such charges and further agrees that any claim Customer may have against GES shall be pursued independently by Customer as a separate action to be resolved on its own merits. GES retains the right to pursue collection on amounts owed after show close, without regard to any amount alleged to be owed for damage, or loss.

COMPANY NAME	EMAIL ADDRESS	BOOTH NUMBER

The undersigned Exhibitor Appointed Contractor ("EAC") has been designated by an Exhibitor to perform certain services for the Exhibitor at the above referenced show. In consideration of the show organizer and GES permitting the EAC to perform such services at the show, the EAC and GES hereby agree as follows:

The EAC must not commit or allow to be committed by persons in its employment any acts that could lead to work stoppages, strikes or labor problems.*
8. *EAC will be responsible for all reasonable costs related to its operation, including overtime pay for stewards, restoration of exhibit space to its initial condition, etc. Where applicable a one hour minimum labor charge will be charged at the appropriate steward rate of pay per day/per union to either the EAC/Exhibitor depending upon the billing arrangement set up with GES. 19. *EAC/Exhibitor agrees to keep "No Freight Aisles" clear at all times. 20. *EAC/Exhibitor agrees that all outbound freight bills should be turned into the service desk on a timely basis. 23. *Label empty cartons and crates for storage as soon as they are ready. Holding back on "empties" only adds congestion to the aisles.*
24. *For services such as electrical, plumbing, telephone, cleaning and drayage, no service provider other than the Official Service Provider will be approved. This regulation is necessary due to licensing, insurance and work done on equipment and facilities owned by parties other than the Exhibitor. Exhibitors shall provide only the material and equipment they own and those materials are to be used only in their exhibit space.*
25. *Smoking is prohibited in most facilities. Smoking shall only be allowed in designated areas.*
26. *This agreement is to be interpreted under the laws of the State of Nevada.*
27. *A faxed signature will serve as an original signature and will stand as a fully executed agreement once faxed to and received by GES.*

Material Handling Information

All orders are governed by the GES Payment Policy and GES Terms & Conditions of Contract as specified in this Exhibitor Services Manual.

The Fred Hall Show - The Ultimate Outdoor Experience
Long Beach Convention Center
March 4 - 8, 2015

Material Handling is the unloading of your exhibit materials, delivery to your booth, handling of empty containers to and from storage, and removal of your materials from your booth for reloading onto your outbound carrier. This is not to be confused with the cost to transport your exhibit material to and from the event.

Benefits of Advance Shipping to the GES Warehouse

- Storage of materials for up to 31 days prior to your show.
- Delivery of Shipments to your booth by your published set-up time.
- Some convention centers and hotels do not have facilities for receiving or storing freight.
- Saves valuable set-up time.

How to Ship in Advance to the GES Warehouse

- Remove all old shipping and empty storage labels.
- Fill out and attach enclosed Advance Shipping labels.
- Complete the enclosed Material Handling Order Form.
- Remember to confirm receipt of your shipment prior to leaving for the show.
- All shipments must have a bill of lading or delivery slip showing the number of pieces, weight, and type of merchandise.
- Certified weight tickets must accompany all shipments.
- Take the time to ensure that your display and products are packed neatly and securely.
- Do not ship uncrated materials to warehouse.
- For a rate quote please call GES Logistics at 1.888.454.4437.

How to Ship to Exhibit Site

- Consign all **domestic** shipments c/o GES.
- Do **not** consign **international** shipments c/o GES; however, please contact our international division at: GESLogistic_international@ges.com.
- Remove all old shipping and empty storage labels.
- Fill out and attach enclosed Direct Shipping labels.
- Complete the enclosed Material Handling Information Sheet.
- All shipments must have a bill of lading or delivery slip showing the number of pieces, weight, and type of merchandise.
- Certified weight tickets must accompany all shipments.

- If you are shipping your carpet and/or lighting truss, make sure it is loaded last so it can be unloaded first.
- For a rate quote please call GES Logistics at 1.888.454.4437.

Freight Carriers

Select a carrier with experience in handling exhibition materials. Make sure to give your carrier explicit information as to where and when to check in. Delivery and pick up times are often out of the range of "normal" delivery hours, make sure your carrier is committed to meeting your target dates and times. While making shipping plans to the Show, also plan for the return shipment. For a rate quote please call GES Logistics at 1.888.454.4437.

Tracking Shipments

Confirm your delivery date and time with your carrier, and have all pertinent shipping information in the hands of your representative at show site. You may also want to review the return of your Goods at the end of the show. GES Logistics domestic shipments can be tracked online by going to: www.ges.com/everything/logistics/tracking/.

Estimating Material Handling Charges

Handling charges are based on the weight of the freight. Shipments are billed by the hundred weight and rounded up to the nearest hundred. Minimum per Shipment may apply, see enclosed Material Handling Order Form for details. Please prepay all shipping charges - GES cannot accept or be responsible for collect shipments. Crated and uncrated shipments must be separated and clearly identified on separate bills of lading with separate weight tickets - otherwise GES will invoice the entire load at the Uncrated rate.

- **Crated** – Material that is skidded, or is in any type of shipping container that can be unloaded at the dock with no additional handling required.
- **Uncrated** – Material that is shipped loose or pad-wrapped, and/or unskidded machinery without proper lifting bars or hooks.

Estimating Material Handling Charges, *continued*

- **Special Handling** - Defined as shipments that are loaded by cubic space and/or packed in such a manner as to require special handling, such as ground loading, side door loading, constricted space loading and designated piece loading or stacked shipments. Also included are mixed shipments and shipments without proper delivery receipts.
- **Overtime Surcharges** - Shows that move-in or move-out on weekends or after 4:30 PM during the weekday, may be subject to additional overtime surcharges. See enclosed Material Handling Order Form for details.
- **Late Surcharges** – May be charged an additional overtime surcharge
  a. If advance freight is received before or after the published deadline date for shipments to arrive at the warehouse. See enclosed Material Handling Order Form for details.
  b. Freight shipments sent to the show after it has opened.
  c. Freight shipments that are received at showsite that do not meet their published date & time.
- **Shipment Surcharges** – A surcharge will be incurred per shipment for those that are received with incomplete information on shipping labels identifying company name and booth number and/or shipments that are left on the show floor at the end of the show with no labels and no bill of lading turned in.

Machinery Labor and Equipment

Labor and equipment for uncrating, unskidding, positioning, leveling, dismantling, recrating, and reskidding machinery and/or equipment must be ordered separately. Place your order for this labor using the In-Booth Forklift & Labor Order Form. If your material requires specialized rigging equipment, please notify us promptly so that we can make arrangements. When possible, supply your own rigging equipment with shipments and pre-rig your material.

Storing Empty Containers

Properly labeled empty shipping cartons will be picked up, stored, and returned after the show. Labels are available at the **GES Servicenter®** or from your GES Service Executive and are for empty storage only. Depending on the size of the show, it can take from two to twelve hours to return empty crates. Do not store any items in crates marked "empty." GES has no liability for damage to crates or items sent to empty storage in crates.

Outgoing Shipments

An OMHF (Outbound Material Handling Form / Bill of Lading) must accompany all outgoing shipments. Shipping information, outbound forms and labels will be available at the **GES Servicenter®**. Exhibitors selecting non-official carriers will need to make their own arrangements for pickup. Make sure that someone from your company will be on-site to oversee the outbound shipment of your display and product.

Measure of Damage

- **Liability** – GES is liable for loss or damage to your Goods only if the loss or damage is caused by GES negligence.
- **Sole Relief** – If found liable for any loss, GES' sole and exclusive maximum liability for loss or damage to Customer's Goods is limited to $.50 (USD) per pound with a maximum liability of $100 (USD) per container, or $1,500.00 (USD) per shipment, whichever is less.

Insurance

All of your Goods should be insured by your own insurance policy. Although we do our best to handle your Goods as our own, there are many variables in shipping and handling that can affect your exhibit and products. GES has published GES Terms & Conditions of Contract that are in this exhibitor service manual. Please read them carefully. It is recommended that your Goods be insured.

Work Zone

Customer acknowledges that the show site and surrounding areas are active work zones. Customer, its agents, employees and representatives are present at their own risk.

What is "Special" Handling?

Special Handling applies to shipments that are loaded in such a manner as to require additional labor and handling to unload or load out. An additional fee beyond the standard crated rate will apply.

Special Handling Includes:

Ground Loading
- Vehicles that are not dock height, preventing the use of loading docks.

Side Door Loading
- Shipments tendered for delivery in such a manner as to prevent access from the rear of the trailer.

Constricted Space Loading
- Freight loaded "high and tight" or down one side as to make shipments not readily available.

Designated Piece Loading
- When a trailer must be loaded in a particular sequence to ensure fit.

Stacked, Cubed-out, or Loose Shipments
- Shipments loaded in such a manner requiring items to be removed to ground level for delivery to booth.
- Items that would need to be unstacked/stacked, unstrapped/strapped, or loadbars to be removed/ installed during the unload or load out process.

Multiple Shipments
- Shipments that are loaded mixed on the truck, failing to maintain shipment integrity and/or have multiple delivery areas.

Mixed Shipments
- Pieces for separate shipments that are loaded mixed throughout the delivery vehicle, or shipments of crated and uncrated goods where the percentage of uncrated is minimal and does not warrant full uncrated rate for shipment.

Improper Delivery Receipts
- Shipments that arrive without individual Bill of Lading. Possible examples might include: UPS, FedEx, company trucks, privately-owned vehicles.

Uncrated Shipments
- Material that is shipped loose or pad-wrapped, and/or unskidded machinery without proper lifting bars or hooks.

Special Handling Examples:

Side Door Loading *Constricted Space Loading*

Stacked Shipments *Uncrated Shipment*

AVOIDING ADDITIONAL COSTS:

Files obtained from the internet (.jpg or .gif) or artwork created in MS Office applications (Word, Excel, PowerPoint, etc.) are often not suitable for high quality output, and often require additional hourly charges. Artwork should be created at actual size, however, for larger files i.e., banner artwork, 10% or 25% of actual size is acceptable. Scans should be no smaller than 300dpi at quarter size. To avoid additional costs associated with these file types, please supply files in accordance with the defined herein.

Vector Artwork

For the best quality, create in **vector format** (**ai** or vector **eps**).
Logos taken from websites are generally gif files. **Gif files are not acceptable as they will not print clearly.** See Visual.

Artwork produced in vinyl, for example; solid company logos or text, must be supplied in a **vector format** (**ai** or vector **eps**).
Artwork created in a pixel format i.e., TIFF and JPEG is not suitable. See Visual.

Low Resolution Image

High Resolution Image

Bitmap/Raster Artwork

Tif and PSD - These are the preferred file formats for raster images. Files should be supplied at 100dpi at full size, or they should scale to those dimensions**. If** the resolution is lower than 100dpi, images can look blurry or pixilated when printed. If there is a lot of small test in the raster image, the file can be provided at higher resolutions to ensure print quality. See Visual

JPEG - We can use JPEG files, but because JPEGs use file compression this can sometimes affect image quality. Therefore, this file type should only be used if the files are being emailed.

PDF - These are print files only and cannot be altered to fit different sizes, artwork must be set up at the correct proportion and at print-ready quality. Ensure images are saved at high resolution (100dpi at final size).

Color Set Up

If your artwork is using PANTONE Colors, please supply a Pantone color reference. Some colors are more likely to be achieved, but due to printer limitations, Pantone colors are matched to the best possible interpretation for the specific output device. Hard copies such as brochures or print outs can be used as a reference for color matching.

Fonts

Turn all fonts into outlines or convert to paths before sending the files. If you are using a program where this is not an option, YOU MUST INCLUDE ALL FONTS with your files. OTF (open type fonts are preferred).

GES Transfer Site:

Gather all your production layout files and all your high resolution artwork into a single folder, named with the client name. Please include fonts.
Drop this folder onto your Stuff-it program. Use ether the .sit, .sea, or .zip compression.
Connect to the web address: http://file.ges.com in your web browser and follow the user-friendly instructions. Please note: a GES representative's email address is required.

FTP (File Transfer Protocol) Information: We request that you upload your file(s) based on the region in which your event is located.
However, the FTP host address is always ftp://csftp.ges.com

*For Western Region Shows (Las Vegas, LA, San Francisco, San Diego, Reno, Phoenix) the user name is **geswstftp** and the password is **o8c!x6eq***

Front and Backlit Graphics

When producing artwork for front lit graphics or transparencies keep these points in mind:

- Avoid setting type in Photoshop — instead use a vector-based program (such as Adobe Illustrator) for your type. If you do use vector smart objects, save the file as an.eps or .psd to retain vector properties.
- If you plan to add effects to your type (such as drop shadows or glows), follow these steps:
  a. Import the Illustrator type into Photoshop
  b. Add effects to the type
  c. Separate the effects onto a layer
  d. Delete the type layer
  e. Assemble the type and photo in a vector program.
- Always provide logos in a vector format.
- If you have critical PMS colors to match, provide us with a layered Photoshop file to allow for color editing.
- Always add at least 1" of bleed to your images.
- Use gradients carefully and sparingly. Gradients often "band," and little can be done to correct the problem. Look at your high res file at 100% — if you can see the banding, it WILL appear in the print. Adding 1 pt. of noise to the file may resolve the problem.

File Sizes

Please build Photoshop (raster) graphics to at least 100dpi at final size. Any combination of size/resolution that produces this result is acceptable.
(e.g. 1/4 size file @400dpi)
Here is an easy way to determine how much digital information is needed for your graphic:

- Open a new document in Photoshop
- Enter the final width and height of your graphic.
- Enter a resolution of 100 dpi

The resulting megabyte size is the approximate amount of digital information we need for best quality output.

Adobe Illustrator, InDesign, Photoshop

- Work with .eps files as much as possible. .eps files are a better quality file format than .tif files and are accepted more easily by Adobe Illustrator.
- Save a Low Res files version of your files for proofing and a Hi Res file for production. Illustrator allows for seamless swapping of LR and HR files provided the images are the same dimensions.
- When saving your HR file, use the settings shown in *figure a.* This will compress the information in the file without degrading the quality. High resolution files saved with this setting present no issues for our output devices.
- If you must work with a .tif file because you are colorizing it in illustrator, save the HR file with the LZW compression option.
- Keep all color-critical elements of your design vector whenever possible. Don't send the layered Photoshop unless you need critical color corrections. If you want to add a Photoshop effect to a logo or color critical text: set the text in illustrator or keep the logo vector, create the desired effect in Photoshop, then link the Photoshop file into Illustrator under the color critical vector art or text.
- Photoshop files with text or vector smart objects need to be saved out as .eps or .psd to retain vector properties.

Placed Images

Provide placed images at 100dpi at 100% of final size as a .tif LZW compression or .psd embedding images in Illustrator is preferred and need to be 100dpi at final size.

Fonts

Turn all fonts to outlines or convert to paths before sending the files. If you are using a program where this is not an option, YOU MUST INCLUDE ALL FONTS with your files. OTF (open type fonts). are preferred.

Vinyl

We can only produce vinyl for type or logos from VECTOR based artwork. DO NOT send PowerPoint files, .gifs, .jpgs, .pdfs or raster-based images output to vinyl.

Remember!

- You MUST add bleed to your photographic images.
- Backlit graphics are held in place with velcro or with a frame–place type and critical images at least 1" from all edges to avoid this dead space (see diagram below).
- You MUST provide PMS colors. We are not responsible for accurate reproduction of your logo or corporate colors if PMS matches are not provided.
- Please make certain that your scans are clean (free of dust, dirt, and scratches) BEFORE you send them for production. Deadlines and time constraints do not allow us to check all your images for quality. We must *assume the images you provide are the highest quality available to you. To check for quality, look at your Photoshop files at 100% enlargement. If you can see dirt and scratches, they will appear on your final output. Use the rubber stamp tool (clone stamp tool) to eliminate these imperfections.*

ELECTRICAL CODE

Electrical requirements for an exhibit at all convention facilities are for the safety of all Exhibitors and are based on national electrical codes and local ordinances.
Too frequently, fires have been traceable to faulty wiring, sometimes because of carelessness and sometimes because of lack of understanding of the risks involved.

In the interest of public safety, exhibits at all convention facilities may be inspected to determine if any violations exist. If they are found, qualified electricians are available to correct the problems. This work will be performed on a time and materials basis. If the Exhibitor does not wish to have the fault corrected, electrical service to the offending booth will not be connected.

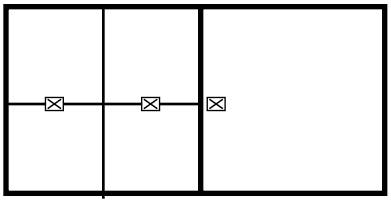
If an Exhibitor is not informed or does not understand basic safety standards for electrical wiring, an electrician should be consulted before shipment is made to convention facilities.

Serious risks are involved which can be eliminated by understanding basic requirements of safe wiring inside your booth. For the safety of you and the public, remember these points:

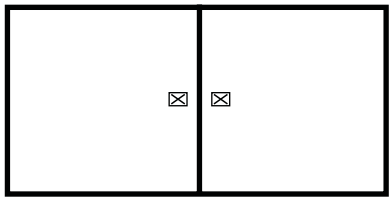
- All wiring must have a 3-wire grounded cord with a minimum of #14 gauge.
- Spot or flood lighting is a hazard when lamps are too close to fabrics or other material which can be affected by heat.
- The use of clip-on sign sockets, latex, or lamp cord wire in displays, or the use of 2-wire clamp on fixtures, is prohibited by order of fire prevention bureaus at trade shows and conventions.
- Zip cords or two-wire cords are ungrounded and could result in safety hazards. Their use is forbidden in all convention facilities. Please leave all 2-wire cords at home!
- Exhibitor is responsible for providing surge protectors for their Goods. GES is not responsible for loss or damage resulting from power surges. Furthermore, GES's liability for any and all loss or damage is limited to the value of the cost of electrical services provided or depreciated value of Goods, whichever is less.

If you have any questions, please call us at 800.475.2098

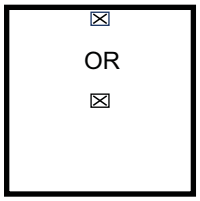
Where will my outlet be located?
There are four different types of trade show booths: In-Line Booths, Peninsula Booths, Back-to-Back Peninsula Booths, Pavilion Booths, and Island Booths. Each type of booth has its own standard method of installation. In the following diagrams, the symbol ⊠ represents the approximate location of power outlets. Main drop locations must be indicated on the floor plan as MDL:



In-Line Booths **Peninsula Booths**



Back-to-Back Peninsula Booths



Island/Pavillion Booths

One drop will be provided within the booth when power source is in the ceiling or one location on perimeter when power is in the floor.

In-Line Booths, Peninsula Booths, or Back-to-Back Peninsula Booths:
Your pre-ordered electrical outlet will be installed at the rear of your booth, at the drape line.

Island or Pavilion Booths: You need to designate one location for each outlet you order. Multiple outlet locations will be charged on a labor and material basis. For facilities with power originating in the floor, your electrical outlet will be placed at one location at our discretion. All other distribution will be done on a time and material basis. If you fail to provide us with a floor plan, outlet will be placed at one location at our discretion.

How much power do I need?
Calculate your lighting needs by adding wattage in each location. For other equipment, read the ratings from the metal plates attached to each unit.

Smart City understands that Ping and Traceroute are valuable troubleshooting tools; therefore Smart City's Policy does allow ICMP (Ping & Traceroute) packets sourced from any Smart City network(s).

Customers requiring inbound or outbound access to any of the filtered ports, should contact a Smart City customer service representative in advance of the event with details of the specific requirements so that Smart City may consider the potential of a customized alternative.

Each Customer's business is important to Smart City and with advanced and timely notification of a Customer's needs we are confident that we can provide network services that perform as expected for all clients.
